STATEMENT

IT IS IMPOSSIBLE TO PROTECT NATIONAL INDEPENDENCE AND NATIONAL HONOUR WITHOUT GIVING AN END TO SLAVISH DEPENDENCE ON THE US IMPERIALISM

Following the decision of the US Congress on ratification of genocide against Armenians in 1915, a broad nationwide reaction has raised against the USA from various circles. Reaction of different circles are based on different reasons.

The reactionary fascist forces, Evren-Özal dictatorship who try to deny this shame stamped on the forehead of the Turkish nation by the pro-imperialist Ittihat and Terakki government of the Ottoman Empire now when the foundations of official thesis on this issue was destroyed by their chief ally in NATO, fall into a state of panic. Those who tried to isolate the left forces and their other political opponents from the people for years by the allegation of collaboration with 'Armenian terrorists', those who disseminate the lie of 'Soviet Union is the backer Armenian terrorism', now in order to prevent the realities to be understood create such a big noise.

Opposition of the Evren-Özal partners against the US Administration is only a sham. Their purpose is to hide from the people military opportunities provided on our territory for the Reagan Administration who makes preparations for a global nuclear war, for military, political and economical compromises and to carry on their attempts of putting onto sale our country plot by plot for the US imperialists. Those who scream now "For godness sake, let the Turkish-American relations not to be destroyed", are those who want these slavish relations to continue. Evren-Özal partners pray the Reagan Administration to change the decision of the US Congress. That is necessary for them for continuation of their national betrayal policy. Their aim is not to defend the history of the Turkish nation but to hide their slaughter against the working class, all working people and against the Kurdish nation.

Recent developments more openly exposed the shameful, slavish position of our country.

The US Administration is not only satisfied with prance about in the country, as they wish, with interfering everything, up to how our political regime should be, but recognizes itself the right of interfering our history as well. The purpose of the US Administration of course neither the exhibition of the realities of the history nor expression of the unjustness against the Armenians in the past. Why the US Administration brings into the agenda the slaughter of 70 years ago since himself gives the biggest support to the bloody regimes, is the chief supporter of the present antidemocratic repression in Turkey and the terror over the Kurdish people, can only be connected with its imperialist aims. By

holding this position, just before the presidential elections, the US Administration wants to present itself sympathetic to the Armenian minority in the USA and wants to make use of the issue as a trump to get more concessions during the bargain with Turkey. That is the unchanged tactic of the US imperialism, it is the tactic of slaughter by people against others.

The one who gives the opportunity to the US Administration to interfere in every field in our country is the Evren-Özal dictatorship. By denying the genocide against Armenians in the past, they serve for the US imperialism to incite 'Armenian terrorists'. And by subordinating the economy, foreign policy, national security, education and everything of our country to the US imperialism they pave the way for him to introduce new pressure and impositions at every moment.

The reality underlined for tens of years by the CPT, the reality that the US imperialism is not a friend of our people, today shows itself more concretely. Indignation raised against the latest decision of the US Congress among the ranks of our people and the representative of the forces for peace and democracy in content is an expression of demand of our people for national independence and sovereignty against the US slavery.

No one should keep silent against confusion in the consciousness of our people for defence of our national interests. It should not be allowed their attention to be drawn towards false targets.

It is impossible to protect the national independence and national honour without giving an end to the slavishly dependence on the US imperialism.

The CPT calls upon all patriotic forces to heighten their indignation with a lauder voice against the bilateral enslavement treaties signed with the USA, against the US military bases in our country, and for national independence and sovereignty

September 17, 1984

Central Committee
Communist Party of Turkey

ANNOUNCEMENT

CHAUVINISTIC STATE TERROR IN KURDISTAN OF TURKEY SHOULD BE STOPPED IMMEDIATELY!

Fascist dictatorship in Turkey tries to create such an atmosphere that as it was before September 12 1980, explosion of bombs and murder of people. It would not be surprising if "terrorist" acts with dark hands of MIT (Turkish Intelligence Service) and CIA hidden behind are multiplied.

The Communist Party of Turkey calls upon our people, progressive forces to be vigilant in the face of new plans of the fascist dictatorship.

What reinforces the fascist dictatorship to do this is its further loss of internal and external support and getting weakened. The fascist dictatorship tried to strengthen its positions with the plot of 'returning to democracy' and by hiding itself behind the so-called civilian government. It took some steps along this way and continues to do so. Nevertheless, its each step along gaining power

and strengthening its positions further weakens itself.

The government of the dictatorship is cracking up. Those who voted for the party made up this government now very well understand that they have been deceived. Today, not only workers, peasants, public employees, small shop-owners and intellectuals, but the number of industrial businessmen who openly express their reaction against this government increases.

Today, the rate of inflation has run up to 60 percent. Unemployment has increased to unprecedented levels. The economy of the country is being dragged into a collapse. Decay and degeneration in social and cultural life has been accelerated tremendously.

Evren- Özal partners hand over to the USA the national honour and rights of national sovereignty of the people. They pursue an anti-popular and national betrayal policy.

The real face of the US imperialism which they tried to present our people as our friend showed itself openly. K. Evren, who carries the title of President however does not stop expressing slavishly dependence on the US imperialism. Evren while acting with bravado and driving the army to the Kurdish and Turkish people remains with tied hands before the USA.

On the one hand he claims that democracy has returned, there exists a government and a parliament elected by the people, on the other hand, speaks about on the subjects that only the government and the parliament can speak about and recognizes for himself the right of making decisions. He accuses those who raise the demand for early elections with bringing anarchy. He says, he would not allow the Constitution and other fundamental laws such as the code on trade unions to be changed, and no general amnesty. Evren goes further, speaks as a person who has an authority of judgement. He talks about those 'to be executed', who were not even persecuted completely by the judiciary organs and were not tried.

What sort of a president is he? Evren openly announces that he has no intention of leaving the dictatorship.

The aim of dictator Evren is to frighten the people, to strengthen the dictatorship and relieve the Özal government. For that reason, he would not hesitate to plot new provocations and new lies.

Democratic forces should not fall into this trap. They should not leave their positions. They should not give support to the efforts of the dictatorship to create an atmosphere of terror. We should not let the dictatorship to play trick as it was in September 12 1980. Partiotic commissioned and non-commissioned officers, soldiers in the army, do not allow yourself to be driven once more onto the people, onto the progressive forces!

It is necessary to make null and void the plots of the dictatorship on new offenses against our working class, forces, against the progressives and national democratic forces.

Democratic forces, left forces should not let the dictatorship to practice a new ploy of creating an atmosphere of terror again, they should raise the demand of our people for independence, democracy, national independence, and peace. Withdrawal from the positions only encourages the enemies of the people.

Central Committee

Communist Party of Turkey

STATEMENT

SLAUGHTER IN KURDISTAN SHOULD BE STOPPED!

Since August 15, 1984, a war of extermination directed against the Kurdish people with the pretext of "a struggle against terrorism" now has been carried over the borders. Evren-Özal dictatorship violated even its own laws and drove the army into Iraq. That situation has increased the tensions with Iran who is in conflict with Iraq. It has multiplied the threat of our country to be dragged into adventures of war in the region in accordance with the US plans .

Compatriots,

Above all, it is a humanistic, a patriotic task to say 'stop' to the slaughter and brutality carried out in Kurdistan of Turkey. There, villages are under occupation, women are being subjected to the most degrading acts, old and young, all Kurds are subjected to torture. They put restriction on distribution of food and cloths. The people are left in hunger and without cloths. Villages are emptied and the people were driven off their residences and their own lands.

In order to justify the slaughter against the Kurdish people and the attack against Kurdistan of Iraq, the Prime Minister Özal holds the demagoguery of "there are those who want to prevent Turkey to become stronger and for that reason they back terrorism". And tended to accuse neighbouring countries and the CPT. Who are the ones really weaken the country and support terrorism? Who are the ones united against Turkish Kurdistan, against the people of our country?

They are the ones who drag the destiny of these lands on which Turkish and Kurdish people live together and the destiny of our country, Turkey into dangers. Those who allow imperialism to trample upon the national independence of our country. Those who want to drive the country into adventures in the direction of war-provoking policy of the USA. Those who open the economy of the country for the plunder and exploitation of imperialism. They are the enemies of the nation and the people. They can not speak a word against the CPT who is the real defender of the national interests of our people, a true friend of all peoples.

Those who back terrorism are the ones who collaborate directly with Washington under the name of "Counter-terrorism" programmes against our people and against the national liberation movement in the region. As Ş. Elekdag, Turkish Ambassador in the USA expressed without any hesitation, those are the ones who make Turkey "the best shield" for aggressive Israel. Those who release the members of the Nationalist Action Party and appoint them to the top posts in the state organs, try to organise armed gangs against the Kurdish peasants. Those who make terrorism directly a state policy. Those are the ones who drive the people into bankruptcy through an economical terror policy. Neither of them can say a word against the CPT who is the most decisive defender of democracy.

The aim of Evren-Özal partners is to play the game that Pentagon wants to be played in the Middle East and to be the US gendarmerie against the peoples of the region, beginning with the Kurdish people, against people who want

peace, freedom and independence and not to be a shield for Israeli zionism. This adventuristic course is directly connected with the interests of the US imperialism. Pentagon, repeatedly saying that "there is a gap of defence in the Eastern region of Turkey" and "when the security of Turkey is in danger, we shall fulfil our commitments" now tries to provoke our country against Syria and Iran. It tries to make up its defeat in Lebanon by driving our people into a war. Pentagon wants to increase its military presence in the region through making use of tensions and conflicts in the region and to base itself in the region for its plans about a war against our hard days - friend, the Soviet Union. Defence and Cooperation Treaties secretly signed by the dictatorship with the USA provides every opportunity for Pentagon in this connection.

The slaughter operation carried out by Evren-Özal partners in Kurdistan of Turkey and in Iraq are directed not only against the existence and the interests of the Kurdish people but also against the whole peoples of the region. It is a threat against peace in the region and in the world. All their promises for the people has come out a lie. The people wants to get rid of Evren-Özal dictatorship. For that reason, in order to sneak from the corner, these betrayers run into war adventures with the hope of deceiving the people once more through chauvinistic propaganda and atmosphere of terror. They conduct an undeclared barbarous battle against the Kurdish people with the allegation of defending the interests of the country. The militarist generals, the way they had planned the September 12 coup long before and made use of terrorism, the attack against in Kurdistan is also plotted long time ago.

Compatriots,

Oppose all these, that brutal onslaught against the Kurdish people in the name of the humanity, for democracy and in order to prevent our country to be driven into adventures! The army should be withdrawn from Iraq! Operation in Kurdistan should be stopped immediately. Removal of the peasants from their villages should be stopped, bans and restrictions introduced for the Kurdish people should be lifted! Stop the national oppression! The CPT reminds every one once more! The nation who suppresses another can never be free! It can never remain free!

INFORMATION

ROLE OF TURKEY IN THE MIDDLE EAST

A NATO member country Turkey with its present regime, increasingly becomes an element of threat against the peoples of the near and the middle east. Recently, operation of the Turkish army against the Kurdish people in Kurdistan of Turkey and Iraq stepped up the efforts of the US imperialism to drive Evren-Özal dictatorship into the military operations in the region as a reserve force to take the place of the Israel, intensive hostile propaganda against neighbouring country Syria, all are the signs of the fact.

What is the role of Turkey in the plans of Pentagon and NATO?

The role given to Turkey in the plans of Pentagon and NATO is: To be a springboard of aggression against the Transcaucasus region of the Soviet Union and against the socialist countries in Balkans, a base of transit of forces in the operations to be directed towards near east and Persian Gulf and a gendarmerie against the peoples of the region.

A secret Pentagon document dated March 22, 1982 and signed by C. Weinberger consists detailed plans about enlargement of the military bases in Turkey, deployment of US war planes there, the Turkish army to be kept ready for a possible connection to the Persian Gulf and if necessary, transfer of the some US troops to Turkey from South Europe (*Die Wahrheit, January 1, 1983*). The CPT CC, in its statement dated May 12, 1982 gave the list of bases being either enlarged or constructed and announ-

ced the essence of the treaty signed between the dictatorship in Turkey and the USA as "plans of driving the Turkish army or the US forces to Iran, Iraq and Syria from these bases" (*Atılım, June 1, 1984*)

In the statement of the CPT CC dated December 8, 1984 said: "let us not allow our country to be a new Israel" and drew attentions onto a new step of the dictatorship who gave the military base of Incirlik for the service of the USA, for its use by rapid deployment forces. As a matter of fact, use of Incirlik base by the USA for military provisions during the aggression against fraternal Lebanese people, provision of all facilities for the US 6. Fleet in Turkish harbours show that the Pentagon chiefs and the military generals in Turkey have begun to put into practice their plans. As a matter of fact, while Turkey was given a premier role in the NATO Hilex manoeuvres, deployment of medium-ranged US missiles in the eastern region of Turkey where the Kurdish people mainly live, took place in the press and met with the protest of broad forces, including non-parliamentarian opposition parties.

They needed a suitable reason to suppress the broadest forces and to realise the mission given to Turkey by the US imperialism. And they found one. To utilize the indignation against oppression over the Kurdish people which took unprecedented dimensions following the September 12, 1980 coup. To carry out operations that would make convincing the fallacy of "Kurdish threat" in-

terlaced with the "Soviet threat" Pentagon chiefs and the Evren-Özal duet base the aggressive mission given to Turkey on to militarist operations in May 1983 in Iraq in February 1984 in Iran and in autumn 1984 in Iraq again with the pretext of suppressing "the kurdish revolters".

The dictatorship is ready for the given mission:

President Evren, during his visit to Saudi Arabia in February of this year in a statement said: "Situation in the Middle East interests us more than anyone" (*Günaydın, February 24, 1984*). On the other hand, the Prime Minister of the regime, T.Özal who introduces himself as the "friend" of Middle East countries, in his visit to Pakistan in May of 1984 spoke openly: "We are muslims with a strong belief. And Turkey has been the leader of the Muslim world until the end of the First World War" (*Tercüman May 15, 1984*). Foreign Minister of the regime, V.Halefoğlu in his statement in which he said the only country to end the Iran-Iraq conflict would be Turkey" and also announced that the war was such that it can change the geographical order. (*Tercüman August 23, 1984*). Lastly another spokesman of the regime, Şükrü Elekdağ, Turkish Ambassador in Washington, while explaining the "significance" of Turkey in his speech in a conference held by Turkish-American Businessmen in İstanbul, made a list of points of strategical and militarily importance of the country. One of his points was such that" with its strategical position, Turkey is a barrier between the communist world and the Arab peninsula" and continued:"...Arab countries have the opportunity to establish close relations with the USA in a great extent because of Turkey which stands against the direct poli-

tical and military influence of the Soviet Union in the Middle East. Turkey, while being a protective shield for Israel, makes a contribution to the present political alignment in the Middle East." (*October 16, 1984 Cumhuriyet*).

And dangerous relations...

Evren-Özal dictatorship who is engaged with the plans of the USA and NATO about the region in such a way, to make establishment of a new military pact consisting of reactionary Arab regimes. They have established some relations already such as sending military experts to Jordan and Saudi Arabia, efforts of creating joint military industry with Egypt and Saudi Arabia, efforts of creating joint military industry with Egypt and Saudi Arabia. Statement of the Defence Minister Z.Yavuztürk "joint production of tanks, submarines and even planes with Egypt" (*Tercüman, July 17, 1984*) and statement of Prince Abdulaziz during his visit to Turkey "Talks in Turkey were intensified on defence industry. Projects will be put into practice in both countries. Turkey offers technology and technicians and the Saudi Arabia capital" (*Milliyet, September 13, 1984*) exhibit these relations very well. The CPT evaluates these contacts as dangerous steps from the point of establishment of interest partnerships in favour of the influence of the US imperialism over the region.

Relations with Israel

Such facts, the visit of four parliamentarians of the Populist Party to Israel, statement of Şükrü Elekdağ about Turkey being a protective shield for Israel prove the agreement of the regime with the US strategy on Turkey to be used more actively as "reserve

for Israel"

A delegation of the US congressmen who visited Turkey in March 1984, stated in Washington that the Prime Minister Özal gave a guarantee for continuation of relations with Israel. (*Cumhuriyet*, March 23, 1984) Later, like some US politicians, the US Assistant Secretary for Defence F. Ikle underlined: "Turkey and Israel should get closer to each other... The great advantage of the cooperation between two countries should be taken into consideration." (*Cumhuriyet*, March 31, 1984) One of the columnist of daily *Cumhuriyet* pointed out the US impositions about drive of Turkey into the orbit of Zionism in the Middle East and wrote about the US imposition as "if you want to stop Armenian terrorism, you should get closer to

Israel". (*April 1, 1984*)

Importance of anti-imperialist solidarity

The CPT who wages a struggle under continuous onslaughts of the police and under deep illegality, tries to mobilise the broadest forces against this mission given to our country in the US plans and against the national betrayal policy of the regime. Our party makes everything in its power to stop this inauspicious mission. On the other hand, it strengthens the cooperation and solidarity with the fraternal communist and workers parties of the region. Under such conditions, the task of the CPT set for itself, the task of overthrow of the fascist dictatorship is important also from the angle of the region.

STATE TERRORISM OF THE FASCIST DICTATORSHIP AND ITS INAUSPICIOUS COLLABORATION WITH THE USA ON TERRORISM

Operations of the dictatorship in Kurdistan of Turkey since August have gained unprecedented dimensions. While Evren states that "it is a war", onslaught is carried out with the allegation of "preventing terrorism". Kurdistan of Turkey was declared as a prohibited area, even the journalists were not allowed to enter the region. Tens of villages along the borders were cleared off their inhabitants and Kurdish peasants were deported to the western part of the country. Another dangerous step was the idea of distributing weapons to "carefully selected peasants" with the allegation of stopping the 'terrorists'. While the Prime Minister Özal answered the questions raised in a press conference, he stated that all news about deportation of the

Kurdish peasants were disseminated by the organs of the CPT.

On the other hand, the chief editors of papers with high circulation were asked to report to the headquarters of Chief of General Staff in Ankara and to the Martial Law Command headquarters in Istanbul. They have been told to be strict on not publishing any news especially no photographs about the events in Kurdistan.

While the slaughter continues in Kurdistan, arrests, new trials, death penalty demands follow each other. On the 7th and 25th of October two more youngmen were executed. Following the speech of Kenan Evren in Muş, reaffirming the "necessity" of death penalties and openly saying that "what else to do rather than

hanging the 'terrorists!', the number of death penalty demands increased rapidly. Since the September 12 coup, the number of those executed due to their political beliefs is nearly 30 and there is over five thousand death penalty demands waiting in the files of the courts.

As 23 leaders of the Peace Committee of Turkey, who were sentenced up to 8 years of heavy imprisonments and are on trial again in accordance with the decision of the Military Supreme Court of Appeal, another trial has started against 48 more members of the Peace Committee. 14 peace-fighters now are faced with 8-15 years and 34 of them with 5-12 years of imprisonments. Among them are well-known journalists, writers, lawyers, doctors, engineers and ex-parliamentarians of the Republican People's Party.

While the trial against prominent intellectuals of the country who were accused of signing a petition under the heading of "Our observations and demands on democratic rights and freedoms" continues, lecturers in the universities are given administrative sanctions, just because they have signed the petition.

On the other hand, following the release of some DİSK leaders, now, the cases opened against the unions affiliated to DİSK are connected to the main DİSK trial. Therefore, the number of workers, trade union leaders who are being tried in DİSK trial has reached to 591, and the number of DİSK leaders facing death penalties is 78.

As the wave of terror of the dic-

tatorship sweeps out the country, the Evren-Özal duet tries to passify the masses with the threat of "Externally supported terrorism", "terrorism will arise again" and to present the anti-fascist struggle as 'terrorism'.

Here, it must be noted that the dictatorship took another step along the way of collaboration with the US imperialism. Following the seminar held by Ankara University on "international terrorism" on April 17-18, 1984 participated by Albert Wohlstetter, political military advisor of the Reagan Administration the chief advocator of the deployment of the rapid deployment forces in Turkey and Paul Henze, CIA Chief in Turkey between the years of 1974-1977, in which they aimed to create a material base for the fallacy about "Soviet threat", collaboration of the Özal government with the USA on "co-
counter-terrorism" was announced by Richard Burt, the US Foreign Secretary of State. In a meeting held by Heritage Foundation on October 4, 1984 participated by some personalities from Institute of Turkish Foreign Policy and also by Foreign Minister V.Halefoğlu, R.Burt made public how the secret directive of Reagan, directive Number 138 to be applied for Turkey and said "We have started to work on an active counter-terrorism program with Turkey." This inauspicious collaboration of the dictatorship with the USA now presents a threat against the peoples of the region and exposes the plans of the USA to use Turkey as a gendarmerie against the national liberation movement in the region.

DOCUMENTS

TO THE CENTRAL COMMITTEE OF THE SOCIALIST UNITY PARTY OF GERMANY

On the occasion of 35. anniversary of foundation of German Democratic Republic, Comrade Haydar Kutlu sent the following message to the Central Committee of the Socialist Unity Party of Germany: "With the foundation of the German Democratic Republic, the ideals that for the sake of them peasant movement of the 1920s, Silesian weavers, barricaders of the 1940s, Spartakiats and heroic anti-fascist fighters were realised. In the motherland of Karl Marx and Friedrich Engels, a society in which the human-being becomes a real human-being, socialism has been established. Today, it will be still less if citizens of the GDR praise with the consistent Leninist peace policy of their country, its being a strong bastion of peace at the conjunction of two systems, its international respect, very close friendship of the USSR and fraternal socialist countries, its rapid economical and social development, providing economic, social and democratic rights and gains for the working people. 35 years of this development was realised by the leadership of the Socialist Unity Party of Germany. The communists of Turkey highly appreciate close ties of the fraternal Socialist Unity Party of Germany with the Lenin's Party and his country, its persistent efforts for preservation of world peace, its internationalist solidarity with our party and with all anti-imperialist forces of the world."

October 7, 1984

TO THE 5TH CONGRESS OF THE COMMUNIST PARTY OF BOLIVIA

On behalf of the CPT CC, Haydar Kutlu, General Secretary of the CC greeted the 5th Congress of the CP of Bolivia with a message underlining that the congress meets in such an atmosphere that the process of democratisation in Bolivia started in 1982 makes progress in complex conditions, the CP of Bolivia makes intensive efforts to protect, advance and deepen this process and play a decisive role in thwarting the plots directed towards the United Democratic Popular Front Government. Preservation of peace in such an atmosphere depends on the success of the struggle of the forces of peace and democracy, the unity among themselves and also the strength of the solidarity.

October 12, 1984

TO THE FOUNDATION CONGRESS OF THE WORKERS PARTY OF ETHIOPIA

Haydar Kutlu, General Secretary of the CPT CC sent a message of greetings to the Foundation Congress of the Workers' Party of Ethiopia and congratulated the Ethiopian communists on behalf of the CPT CC and the communists of Turkey. In his message he said: "The foundation of the Workers' Party of Ethiopia on the eve of the 10th anniversary of the overthrowal of the feudal-monarchist dictatorship in Ethiopia is a genuinely new stage in the revolutionary struggle of the people of Ethiopia. The CPT wishes great successes for the struggle of the Workers' Party of Ethiopia being waged for the rebirth, social progress and orientation for building socialism".

September 6, 1984

TO THE CENTRAL COMMITTEE OF THE BULGARIAN COMMUNIST PARTY

On behalf of the CPT CC, comrade Haydar Kutlu congratulated the fraternal Bulgarian CP, Todor Jivkov, General Secretary of the CC and the President of the State Council and the people of Bulgaria on the occasion of 40th anniversary of the socialist revolution. In his message, he wrote: "This historical victory realised in the favourable conditions created by the successful struggle under the leadership of the Bulgarian CP, the party with 90 years of glorious history, the party of Blagoev and Dimitrov, and the struggle of the Soviet Army in 1944 against Hitler fascism in Balkans is the product of great sacrifices and exemplary heroism of the Bulgarian working class and the people, of the unity of Bulgarian anti-fascists in the ranks of Patriotic Front. In the period of 40 years, the Bulgaria passed from plow to electronics, economic and social gains of the working people, orientation of the country towards foundation of a matured socialist society, all are the source of inspiration for the people waging struggle for peace, national independence, democracy and socialism. Since its foundation, the People's Republic of Bulgaria has been a strong bastion of peace and fraternity among the peoples of the world and of Balkans. Our party considers that development of relations between Turkey and the People's Republic of Bulgaria on the basis of good neighbourhood and peaceful co-existence is highly important. The CPT believes that efforts of the People's Republic of Bulgaria in the direction of creation of a nuclear free zone in Balkans also expresses the interests of our people."

September 9, 1984
